## THE GOSPEL TRUTH

Gospel has given us a sneak peek of the shape of things to come with the first images from its winter collection for next year. Holliday said she would design six on-season collections a year for Truth focused on simple interpretations of the key shapes and trends for the season.

## Fancy That

**DeAndrade Designs** is a story of romance and beautiful jewellery design. This husband-and-wife team met in Brazil in 2003 while Perth girl Alison was in South America learning jewellery techniques and Fernando was honing his design skills after studying the technique of artisans in his native Brazil. Fernando spent many years travelling from town to town learning exquisite techniques that are reflected today in the fine detailing of the DeAndrade Designs collection. He used many products found in nature, including stones, feathers and seeds, to bring life and colour to his designs. The DeAndrade jewellery pieces reflect the couple's unique influences, from Fernando's flamboyant style to Alison's contemporary design. We just love the whimsical detailing and the love story woven into every design. To see the full collection, visit [deandradedesigns.com.au](http://deandradedesigns.com.au).
